

Sample website questions

Note: This test booklet contains 5 Pages.

Total number of Questions are 30 and each question consist of 0.5 Mark (Half- Mark)

$$0.5 * 30 = 15$$

Questions (1-15)

Multiple choice questions –

1. When the computer is shut off the content of _____ is erased.
 - a. **Random Access Memory.**
 - b. Storing Memory.
 - c. Virtual Memory.
 - d. Read Only Memory.
2. _____ are used to store programs and large data files permanently. They are also very fast and their capacity is measured in Gigabyte or Terabyte.
 - a. CD
 - b. Floppy Disk
 - c. RAM
 - d. **Hard disks**
3. A laptop is most likely to have which one of the following input devices fitted as standard.
 - a. Scanner.
 - b. Joystick
 - c. Mouse
 - d. **Touchpad**

4. Binary number 1001, in decimal will be.

- a. 10
- b. 5
- c. 4
- d. 9**

5. Collection of 8 bits is called_____.

- a. Bits only
- b. Gigabyte
- c. Terabyte
- d. Byte**

6. Which of the following is system software?

- a. A Spreadsheet
- b. A Database
- c. An operating system**
- d. A Hard Disk

7. The transfer rate is the volume of data that can be travelled via transmission media in

- a. One hour
- b. One minute
- c. One second**
- d. All of the above

8. Which one of the following statements is true?

- a. A gigabyte is less than a megabyte.
- b. A kilobyte is greater than a megabyte.
- c. A byte is less than a bit.
- d. A terabyte is greater than a gigabyte.**

9. Compiler takes _____ as input?

- a. Single instruction
- b. Entire program**
- c. Line by line
- d. None

10. Which one is below application software

- a. MS Excel**
- b. MS DOS
- c. Mac OS
- d. OS/2

11. What is the value of I variable after the while loop statement below is finished?

Step-1 Start

Step-2 $i \leftarrow 0$

Step-3 while i is less than 5

Step-3.1 Output i

Step-3.2 Increment i // $i=i+1$

Step-4 Stop

e. 0,1,2,3,4

- a. 1,2,3,4,5
- b. 0,2,4,6
- c. None of the above

12. The keyboard, mouse, monitor, and system unit are:

a. Hardware

- b. output devices
- c. storage devices
- d. software

13. Programs that coordinate computer resources, provide an interface, and run applications are known as:

a. application programs

b. operating systems

- c. storage systems
- d. utility programs

14. RAM is a type of:

a. Computer

b. Memory

- c. Network
- d. Secondary storage

15. The largest network in the world is:

- a. Twitter
- b. Internet**
- c. Web
- d. USB

Questions (16-20)

Fill up the blanks from the following options -

a. Defragmenting files	b. Transistor	c. Network	d. Intranet	e. control structures
------------------------	---------------	------------	-------------	-----------------------

- 16. Computers use a **... (b).....** Which is a tiny electrically operated switch that can alternate between on and off?
- 17. Processing of taking all the broken pieces of files and joining them back together again is called **.....(a).....**
- 18. A **.....(e).....** is a block of programming that analyzes variables and chooses a direction in which to go based on given parameters.
- 19. **.....(d).....** is a private network that is contained within an enterprise.
- 20. A **.....(c).....** is a group of computers connected to each other to share resources.

Questions (21-25)

Answer the following as True or False -

- 21. If there is any error in source program then also compiler will change source program to target program. (True/ **False**)
- 22. Projector is an example of both input and output device (True/**False**)
- 23. The term software refer to the physical components of computer (True/ **False**)
- 24. Speed of CPU is measured by Mega Byte or Giga Byte (True/ **False**)
- 25. Input devices allow you to input information or data to the computer. (**True**/False)

Questions (26-30)

Match the following from “List A” with “List B” –

List A	List B
26. In which year IBM produced its first personal computer (d)	a. Buses b. Input/output c. Start/Stop d. 1981 e. Windows
27. Oval shape is used for (c)	
28. Collection of wires which Transmits Data (a)	
29. Parallelogram symbol is used for (b)	
30. Example of operating system(e)
